TODAY'S AGENDA

01 **Project Background & Objectives**
What was built and why

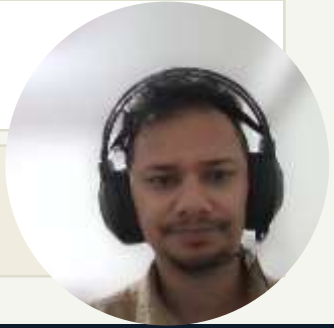
02 **Key Performance Indicators**
Total revenue, customers, and growth metrics

03 **General Analysis Dashboard**
Revenue and customer splits by city and age group

04 **Sales Mode Analysis**
Channel performance and monthly trends

05 **Age Group Analysis**
Settlement risk, policy preferences and behaviour

06 **Key Insights & Recommendations**
Data-driven findings for business decisions



PROJECT BACKGROUND

Why this dashboard was built

THE BUSINESS PROBLEM

Shield Insurance lacked a centralised analytics solution to track revenue performance, understand customer demographics, and identify which sales channels and age groups were driving business growth.

THE SOLUTION

An interactive 4-page Power BI dashboard built on 5 data tables with 13 DAX measures - delivering real-time insights on revenue, customers, sales channels and age group behaviour with full drill-down capability.

PROJECT SCOPE AT A GLANCE

KEY INSIGHTS & RECOMMENDATIONS

Data-driven recommendations for Shield Insurance leadership

01 Double down on Delhi NCR

Delhi NCR generates 40.6% of all revenue. Prioritise agent recruitment and marketing investment in this market to consolidate leadership.

02 Accelerate digital channel growth

Online channels (App+Website) have grown from 3% to 29% in 6 months. Invest in digital marketing and UX improvements to capitalise on this momentum.

03 Target the 31-40 segment

This is the commercial sweet spot — 9,872 customers, ₹284M revenue, moderate risk. Design targeted products and campaigns for this demographic.

04 Review 65+ policy pricing

The 65+ group has the highest per-customer settlement risk at ₹158.53M for 2,399 customers. A pricing review is recommended to protect margins.

05 Expand in Hyderabad & Chennai

These cities show solid customer bases (4,340 and 2,966) but lower revenue per customer. Targeted upselling of higher-value policies is recommended.

06 Monitor March seasonality

March 2023 showed a 85% revenue spike. Investigate
seasonal, plan capacity and marketing campaigns acco
